

# Vessel Readiness Checklist

Vessel name: \_\_\_\_\_ IMO: \_\_\_\_\_

KVH Use Only

The tasks listed in this document must be completed on the vessel prior to system installation. The fleet management company, shipyard, or vessel crew is responsible for completing these tasks in accordance with the system's documentation. If an item cannot be completed/verified, or if any issues occurred along the way, please enter an explanation in the Notes section at the bottom of the table. When you are done, please email this completed form to **fieldservice@kvh.com**.

## Configuration

Select the system(s) that KVH will install on your vessel. Select all that apply.

- TracNet H30      TracNet H60      TracNet H90      TracNet Coastal
- TracPhone V30      TracPhone V3-HTS      TracPhone V7-HTS      TracPhone V11-HTS
- Starlink      Intellian OW10HM      Intellian OW11FM

Backup:      Thales VesseLINK 200      Thales VesseLINK 700      SAILOR 4300      Not applicable

## Approval

By signing below, you attest that all required pre-installation work has been completed and the vessel is ready for KVH equipment installation.

Signature: \_\_\_\_\_

Print Name: \_\_\_\_\_

Title: \_\_\_\_\_
