TracPhone V7_{HTS}/V11_{HTS} Antenna and Ancillary Equipment Labeling Instructions

Getting Help

If you need assistance, please contact the KVH Service Delivery Group at servicedeliverygroup@kvh.com.

This document shows how to label a TracPhone[®] V7-HTS/V11-HTS system, including the antenna, ICM, and optional accessories (i.e., Thales[®] VesseLINK[™] or SAILOR[®] 4300 Iridium Certus[®] system, Iridium Pilot[®] system, KVH Link Set-top Box, and/or KVH Link Media Server) that comprise the AgilePlans installation.

Figure 1: “Property of KVH” Label

Important!

The installer **must** label the equipment as shown. This is a required step in an AgilePlans installation.

NOTE: In all cases, once the adhesive label is placed, press firmly so that it adheres to the surface.

Label the TracPhone System

Label the antenna and ICM “Property of KVH” in the locations indicated below.

V7-HTS Antenna	V11-HTS Antenna	Integrated CommBox Modem (ICM)
		
On the baseplate, opposite the radiation hazard label	On the baseplate, centered above either hatch	Atop the ICM, at the front left-hand corner

Label the Thales VesseLINK 200 (if applicable)

Follow the instructions below to properly label the VesseLINK 200 system "Property of KVH."

VesseLINK 200 Above Deck Unit (ADU)	VesseLINK Below Deck Unit (BDU)
	
<p>Place a clear label on the ADU radome, in the flat area just above the baseplate, opposite the "THALES" label.</p>	<p>Place a silver label on top of the BDU above the "THALES" label.</p>

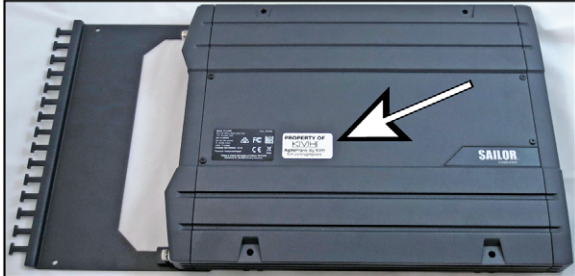

Label the Thales VesseLINK 700 (if applicable)

Follow the instructions below to properly label the VesseLINK 700 system "Property of KVH."

VesseLINK 700 Above Deck Unit (ADU)	VesseLINK Below Deck Unit (BDU)
	
<p>Place a clear label on the ADU radome between the "THALES" label and the "iridium" label.</p>	<p>Place a silver label on top of the BDU above the "THALES" label.</p>

Label the SAILOR 4300 System (if applicable)

Follow the instructions below to properly label the SAILOR 4300 (for Iridium Certus) system "Property of KVH."

SAILOR 4300 Above Deck Unit (ADU)	SAILOR 4300 Below Deck Unit (BDU)
	
<p>Place a clear label on the ADU radome, opposite the radiation hazard label.</p>	<p>Place a silver label on top of the BDU next to the information label.</p>

Label the Iridium Pilot System (if applicable)

Follow the instructions below to properly label the Iridium Pilot system "Property of KVH."

Iridium Pilot Above Decks Equipment (ADE)	Iridium Pilot Below Decks Equipment (BDE)
	
<p>Place a label on the ADE, adjacent to the Iridium logo.</p>	<p>Place a label on the left-hand side of the BDE.</p>
Iridium OpenPort Captain Handset	BDE Power Module
	
<p>Place a label in the phone cradle on the handset.</p>	<p>Place a label on the power module, above the AC adapter cable connector.</p>

Label the KVH Link Set-top Box (if applicable)

Follow the instructions below to properly label the KVH Link Set-top Box "Property of KVH."

Set-top Box	Set-top Box AC Power Adapter
	
<p>Place a label atop the Set-top box, centered and aligned with the back of the unit.</p>	<p>Place a label on the front of the power adapter, opposite the AC plug.</p>
Set-top Box Remote Control	
	
<p>Place a label on the underside of the remote control, away from the battery compartment.</p>	

Label the KVH Link Media Server (if applicable)

Follow the instructions below to properly label the KVH Link Media Server "Property of KVH."

Media Server

Lift the protective film, if necessary, and place a label atop the Media Server, at the front left-hand corner.
