

AgilePlans® Regional

Connectivity as a Service. All-inclusive. No Commitment.

KVH AgilePlans Regional – Connectivity as a Service (CaaS) for Fleets

Welcome to a new era in value, service, and simplicity for maritime communications. AgilePlans Regional – an all-inclusive, no commitment regional service delivering everything your fleet needs for better business at sea – is available for a single monthly subscription as low as USD\$499.

Easy. Affordable. Where You Need It.

AgilePlans Regional offers a comprehensive solution, including high-speed connectivity with unlimited email and texting via the mini-VSAT Broadbandsm HTS network, KVH's award-winning ultra-compact terminals, and advanced cybersecurity protection and training. Plus, you benefit from no overage charges, zero maintenance costs, free standard installation, and global technical support – all provided to your fleet with no ownership costs or costly upfront capital investment.

Unmatched Flexibility for Your Fleet

Whether you are selling or acquiring vessels or you simply want the finest maritime VSAT service for your current fleet, AgilePlans Regional is the ideal CaaS solution. We know that your situation is always evolving; that's why we offer a suspension plan and you can end your subscription at any time without penalty.

Equip your vessels with the maritime industry's leading VSAT connectivity solution with:

- **NO** long-term ownership costs
- **NO** commitment
- **NO** penalties if you need to cancel
- **NO** hassles or headaches

AgilePlans Regional –
a single monthly subscription, with no long-term contract, delivering **everything** below:

A Rugged, Proven Hardware Solution

The Most Advanced, Ultra-compact VSAT Terminal

Rely on years of trouble-free service with the exceptional speeds and coverage of the award-winning, Ku-band 37 cm TracPhone® V3HTS, the fastest, lightest ultra-compact VSAT terminal operating on mini-VSAT Broadband, the leading global maritime VSAT service.

Free Shipping and Standard Installation

Enjoy free shipping to, and standard installation in, as many as 4,000 ports and locations around the globe or a USD\$1,250 per vessel credit towards installation elsewhere. Visit kvh.com/agileports for more details.

KVH-managed Implementation

Be confident your installation will be done quickly and efficiently through KVH's Service Delivery Group, which coordinates the logistics, installation, and commissioning processes. Plus, KVH offers free initial network design consultation upon request.

High-speed Connectivity with Unlimited Email & Texting

Flexible Regional Broadband Service with No Overage Charges

The TracPhone V3HTS offers the fastest high-speed service available in an ultra-compact maritime VSAT system (as fast as 5/2 Mbps down/up) with affordable monthly data plans. When your monthly high-speed data allocation is consumed, the TracPhone V3HTS automatically shifts to a reduced data rate shaped plan with no overage charges so you can stay connected.

Voice Channel with Crystal-clear Service

Pick up the phone and stay in touch, thanks to KVH's outstanding prioritized VoIP service and Wi-Fi Calling-compatibility* within your region.

*Requires Wi-Fi calling support via your cell phone service provider

World-class Cybersecurity Training & Protection

Videotel™ Cybersecurity Training Program

Reduce the risks of data breaches, malware, and more, thanks to Videotel's award-winning "Cybersecurity at Sea" training program, part of KVH's cybersecurity solution and preloaded on every TracPhone V3HTS Integrated CommBox™ Modem (ICM).

Modern Cybersecurity Protection

KVH's 6-Level Cybersecurity Program offers advanced network-level firewall with automated threat management for additional security.

Superior Technical Support & Network Management

Global Technical Support

Optimize your connectivity with the KVH OneCare™ Global Technical Assistance Package, zero maintenance costs for as long as you subscribe, and proprietary KVH IoT Proactive Monitoring, an industry first.

Secure Network Management

Manage your service, maximize uptime, and minimize costs via the secure myKVH™ portal's mini-VSAT Manager, which offers user-friendly control over your data and how it is used. In addition, every TracPhone V3HTS is equipped with KVH's powerful CommBox™ network management tools, providing built-in solutions for data routing and management, web optimization, efficient file transfers, optimized email, flexible crew accounts, and more.

Unmatched Data Control

KVH's Category Control tool enables you to allow, restrict, or block data usage in eleven application category groups, including background data applications, to limit unintended data use by software updates or protocols like Google Drive™ or Apple iCloud®.

Vessel Tracking Service

Achieve new levels of operational efficiency with mini-VSAT Broadband's Vessel Tracking Service, which delivers real-time visibility into your vessels' locations and routes.

What does AgilePlans Regional include?

Satellite Communications Antenna System

TracPhone V3HTS

Ku-band mini-VSAT Broadband HTS service

HIGH-SPEED DATA SPEEDS¹

Shore-to-Ship: as fast as 5 Mbps
