- Secure encrypted email exchange (SSL/TLS)
- Administered by your fleet's ICT department for optimal personalization and control
- Add and manage users, reset passwords, and view usage data in KVH Manager
- Convenient monthly subscription

Compatible with:

Industry-leading cloud email solution allows vessels to access email at sea and in port

KVH Cloud Email Service provides vital connectivity to vessels, allowing users to stay in touch with loved ones on shore, receive business communications, and manage personal affairs both at sea and in port.

The service stores emails in a secure cloud-based mailbox (10 GB storage per user) and automatically blocks spam and malware. Your fleet's ICT department can easily set up user accounts for each vessel and crew member and manage user access and data usage via the KVH Manager website. Users on the vessel can use computers, tablets, or smartphones to receive, read, send, and delete their emails, and the service supports major email clients including IMAP, POP, and SMTP. Bring the KVH Cloud Email Service to your fleet for a convenient, single monthly subscription fee. Mailboxes are purchased in bundles of 50, which includes a custom domain for your fleet.

Pricing

The KVH Cloud Email Service is sold in bundles of 50 mailboxes. Purchase one bundle of 50 mailboxes for \$50/month per fleet. Each fleet/customer will have a unique domain while individual mailboxes have 10 GB of data storage.

To discuss pricing and feature options, contact KVH Sales.

General Terms

- Storage capacity for each email account is limited to 10GB
 - Inbound emails are limited to 5MB; attachments are limited to 10MB
- See the KVH Master Service Agreement for complete set of terms and conditions
