

COMMBOX™ *EDGE PRO*

Stop Managing Connections. *Start Controlling Them.*

Your fleet deserves a communications network that meets your demanding standards, simplifies your connections, and helps secure your data and communications.

All Your Connections, One Platform

5G, VSAT, LEO satellite, Wi-Fi, Ethernet, and more, unified into a single intuitive system. The CommBox Edge Pro provides SD-WAN, control, visibility, and bandwidth management.

Secure by Default

Every license level comes standard with firewall protection, network segmentation, and advanced routing, giving you a secure foundation no matter which suite you choose.

Built to Grow With You

No two operations are alike, so we offer feature suites tailored to your needs. Our most advanced suites scale into a complete service-in-a-box, adding enterprise-level security, network protection, and control through our trusted platform. Contact your KVH representative for a detailed feature suite rate sheet.

Power You Can See and Use

Real-time reporting, advanced channel bonding for combining connections, intelligent hybrid switching to choose the best connection automatically, remote support capabilities, and satellite dashboards and controls, all in one interface for mobile and desktop.

Edge Computing, Built for the Sea

The CommBox Edge Pro offers a powerful addition to your network infrastructure, integrating and managing all of your onboard connectivity.

Router. Firewall. Gateway. VoIP Server.

All in One Ruggedized Network Appliance.

Wherever You Operate, You're In Control

Commercial & Merchant Fleets

The same reliable connectivity and security on every vessel, so your whole fleet runs to one standard without added IT overhead.

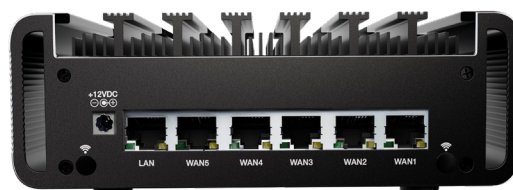

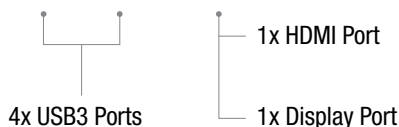

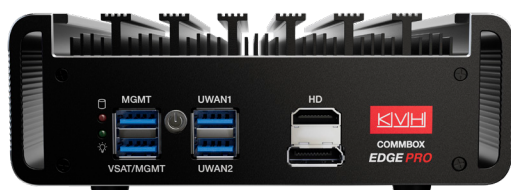

Offshore Energy & Government

Mission-critical protection for operations where downtime and breaches aren't an option.

Superyachts & Luxury Vessels

Fast, seamless connectivity for guests and crew, with enterprise-level security running quietly in the background.

CommBox Edge Pro

Specifications

Services:	Multi-WAN failover External 5G modem support Firewall QoS/QoE Traffic Policies MPK-VPN IDS/IPS Captive Portal Remote Management SD-WAN or Hub Modes Point of Presence (POP)	Processor:	i3-1215u 4.40GHz, 6 core / 8 threads
		Memory / Storage:	16GB DDR5 / 128 GB SSD
		Enclosure:	Standalone, fanless
		Dimensions:	7.0" x 5.0" x 2.25" (178.3 x 125.5 x 57 mm)
		Weight:	2.54 lbs (1.15 kg)
SD-WAN Client Capacity:	Up to 300 clients, typical loading 200	Environment:	10°C to +50°C, ≤95% RH non-condensing
QoS Disabled:	2,350 Mbps	Power:	+12VDC (120W Max)
QoS Enabled:	1,400 Mbps	Certifications:	CE, FCC, CCC
Tunneled to MPK VPN:	500 Mbps	Warranty:	1-year limited, extended warranty available
Ethernet Ports:	6x 2.5 GbE RJ45 switchable LAN/WAN		
Expansion Ports:	4x USB3
