KVH Link™

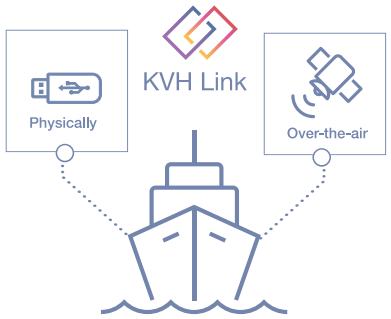

Your Crew's Home Away From Home

Strengthen morale, wellbeing, and retention by keeping crews connected to home and to each other.

KVH Link brings seafarers' treasured connections to home easily and affordably, with daily news updates, live TV, movies, and music curated for life at sea. It provides a relaxing diversion when the crew is off watch and sparks shared experiences through best-in-class content, such as the latest movies, TV, podcasts, karaoke, music, radio, and more. KVH Link and the powerful linkHUB onboard media server enhance wellbeing across every vessel. Flexible delivery options fit your fleet's needs without complexity.

KVH Link makes it effortless to bring great content on board.

Select delivery over-the-air via any onboard network, or secure USB for non-time-sensitive content.
Qualified vessels may also receive data-free delivery via VSAT, Starlink, or OneWeb from KVH.

KVH Link – Benefits for your Crew

Setting the Standard for Outstanding Crew Content

With more than 70 years of experience delivering news and entertainment, KVH provides vessels with best-in-class content that is easy to deploy, affordable to manage, and secure by design. KVH Link offers multilingual content from around the world, including daily news stories and clips, early-release movies and classics from Hollywood to Bollywood, top TV series, music, radio, karaoke, live TV, and trending social video.

Large Selection of Content with Multiple Viewing Options

KVH Link content is continuously refreshed and available to crew individually or in groups, on multiple devices at the same time. Viewing is unlimited and accessible on TVs in the crew mess or on laptops, tablets, and smartphones anywhere on board.

Licensed and Cybersecure

KVH Link content is licensed from copyright holders for crew viewing. Secure delivery methods reduce cybersecurity risks associated with unlicensed content and uncontrolled USB usage.

Engaging and Affordable Packages

Cost-effective packages are designed to match your crew's entertainment preferences and your fleet's budget.

Services Available:

MOVIElink™: Blockbuster films are delivered as soon as they become available, sometimes while still in theaters and months before they can be streamed at home. MOVIElink's continually refreshed library includes major Hollywood releases alongside regional content curated for seafarers. Enjoy films from Indian, European, Pan-American, and Asian studios, including Tagalog and Hindi.

TVlink™: Receive full seasons of today's most popular television series, providing crew with access to familiar, top-tier entertainment.

MUSIClink™: Offers more than 15 music radio genres, podcasts, entertainment news, karaoke, and more. Content is easy to access through a streamlined, user-friendly interface and refreshed regularly to keep options feeling current.

Link Live™: Stay connected to major cultural moments with live TV. Link Live streams news, entertainment, and sports directly on board, with a wide selection of channels available. It's easy to install, making live TV accessible across the fleet.

NEWSlink™: Help crews stay connected to home events with daily news in video, audio, and text formats. Covers nearly every country, grouped by region, and delivered in the languages most widely spoken by seafarers. Content is updated daily and includes over 65 national seafarer print editions, 20+ languages, monthly special-interest publications, and more than 10 daily TV news channels.

YOURlink™: Lets your organization share proprietary content, such as videos, audio files, and podcasts across your entire fleet. Reach crews quickly and affordably, giving them access to corporate updates on TVs in common areas or on their personal devices anywhere on board.

Standard KVH Link Hardware package including 'linkHUB' server and two Set-Top boxes costs just $50/month. Additional Set-Top boxes are available for $12/month.
