

**MAILink+ a reliable, secure, onboard email platform to suit your needs**

MAILink+ is KVH's next-generation internal maritime email connectivity platform. Built on 40 years of KVH Super-Hub experience and proven performance, MAILink+ provides maritime email solutions that deliver vital connectivity to vessels, and enable users to stay connected with other users onboard via email even when WAN connectivity is unavailable.

MAILink+ is a lightweight, .NET Windows-based SMTP/POP3 server platform compatible with Windows 7 and upwards. The email platform consists of three components: the Engine, the Watchdog, and the Console.

- **Engine:** The MAILink+ Windows service provides the SMTP and POP servers
- **Watchdog:** The MAILink+ Windows service monitors the Engine to ensure it is running properly, performs maintenance and update tasks to ensure outstanding reliability and performance
- **Console:** The MAILink+ desktop app enables users to monitor and manage the MAILink+ installation

MAILink+ is easy to install and can be installed by your fleet's IT department. Bring MAILink+ to your fleet today, for a reliable, secure, onboard email platform to suit your fleet's needs.

**MAILink+ - Easy self-install, lightweight, small footprint**
