KVH ONE® OpenNet Program

Get connected with the KVH ONE OpenNet Program with

5 EASY STEPS:

1. Contact KVH and we'll confirm your hardware compatibility

2. Working with KVH, select the airtime plan best for your needs

3. Submit your request and our 24/7 airtime team will activate your terminal

4. KVH Tech Support delivers the software to update your modem*

5. Discover KVH's powerful value-added services to enhance your communications

* May require brief onboard visit by technician.

Value-added Services to Expand Your Connectivity

Enhance your OpenNet experience with KVH's versatile, optional services, including:

- KVH Managed Firewall
- KVH Cloud Email
- KVH Elite Unlimited Streaming
- Intelligent Channel & Connection Switching
- Content Filtering
- SD-WAN
- Advanced Channel Bonding

Upgrade your VSAT communications without replacing your terminal!

Make the switch to superior connectivity with the KVH ONE OpenNet Program. Keep your existing non-KVH VSAT antenna and enjoy KVH's global VSAT coverage, KVH's 24/7 airtime and network support, and KVH's powerful suite of value-added services, all thanks to a simple software update.

Maximize the investment in your onboard SATCOM system and ensure you are always connected via the leading global high-throughput satellite (HTS) network. Enjoy fast speeds, affordable airtime, worldwide service and support, and more.
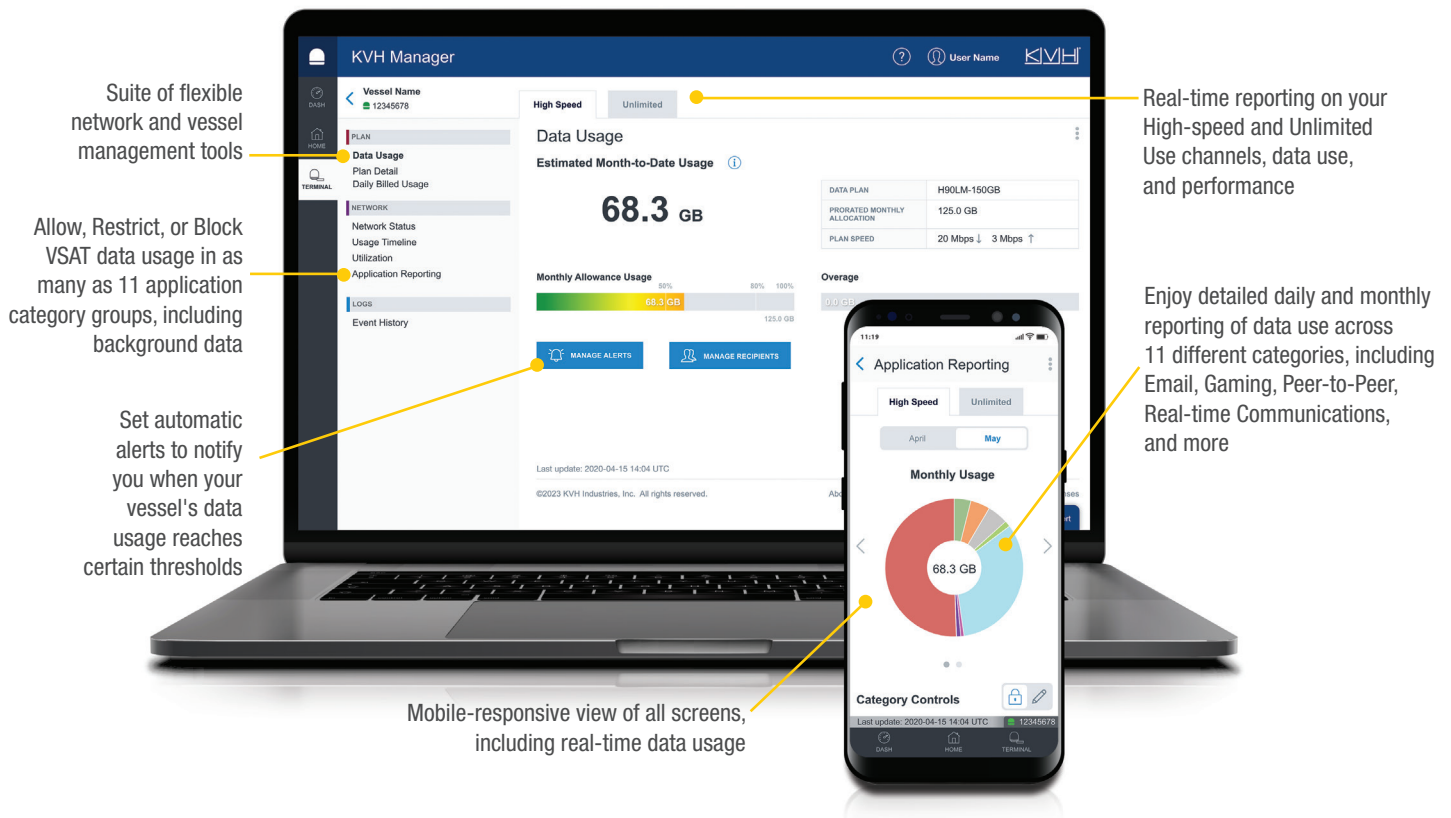

Bring the advantages, affordability, and flexibility of KVH's global HTS network to your existing non-KVH antenna

Continue to use your current antenna with no hardware swaps! You'll enjoy KVH airtime benefits like month-to-month subscriptions, 24/7 airtime service support, value-added services, and satellite network support.

Use KVH Manager for application controls, data usage alerts, and more. Plus, you'll benefit from outstanding VSAT service with 294 million sq. km (113+ million sq. miles) of coverage via KVH's global, layered Ku-band HTS network.
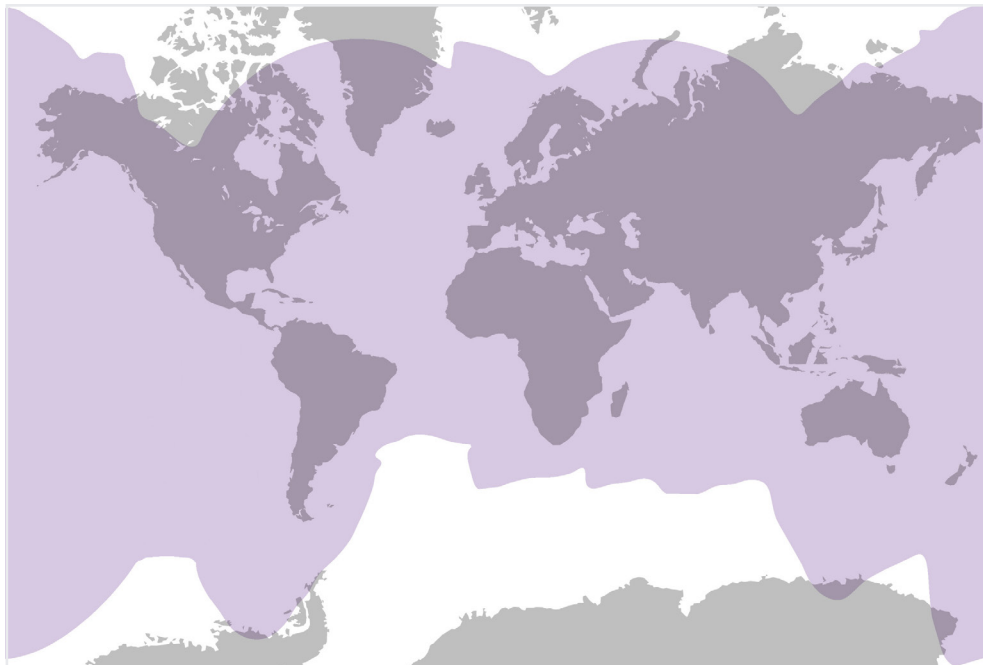

Enjoy the KVH ONE OpenNet Program with leading VSAT antennas

The KVH ONE OpenNet Program is compatible with Intellian, Cobham, and other maritime VSAT terminals. Visit kvh.com/OpenNet to contact KVH and confirm your terminal's compatibility.

Suite of flexible network and vessel management tools

Allow, Restrict, or Block VSAT data usage in as many as 11 application category groups, including background data

Set automatic alerts to notify you when your vessel's data usage reaches certain thresholds

Real-time reporting on your High-speed and Unlimited Use channels, data use, and performance

Enjoy detailed daily and monthly reporting of data use across 11 different categories, including Email, Gaming, Peer-to-Peer, Real-time Communications, and more

Mobile-responsive view of all screens, including real-time data usage

60 cm & 1-meter terminal coverage

You'll benefit from KVH's global, layered Ku-band HTS network, powered by Intelsat, with 294 million sq. km (113+ million sq. miles) of coverage.

Ku-band Coverage

Optional Hardware:

- **KVH MTA Belowdeck Adapter** supports KVH's prioritized VoIP calling service on non-KVH antennas

- **CommBox™ Edge Communications Gateway** delivers advanced technical support for network switching and expanded remote tech support capabilities
  Visit kvh.com/edge for details

- **Newtec MDM3315 Modem** replaces an existing modem if needed

  If the vessel does not have a CommBox Edge device onboard, the user will need a laptop and the TeamViewer app in order to utilize remote tech support.
