The KVH Starlink/CommBox™ Edge Core Performance Bundle

Turn Your Starlink into a Powerhouse

Upgrade from Starlink with “just a router” to a smart, high-performance network with KVH’s exclusive **Starlink + CommBox Edge Core Performance Bundle**. Enjoy powerful controls and features you simply do not get with typical routers.

Why This Bundle Rocks

- Complete Starlink kits with KVH’s exclusive custom data plans.
- Seamless support and automatic switching for multiple WANs like Starlink, OneWeb, 5G, VSAT, external Wi-Fi, and more.
- Smart data usage tracking and alerts to help keep costs under control.
- Free base feature set with easy over-the-air license upgrades to advanced tools for as little as $49/month.
- Pause and resume devices as needed.
- Wi-Fi mesh network with unlimited SSIDs plus extended, high-gain Wi-Fi bridge for better coverage where it counts.
- Out-of-the-box, fully operational router with no activation required + easy registration for free cloud access to see site status and configure remotely.
- Unlimited LANs enabling as many networks as needed.
