

TracNet™ Coastal

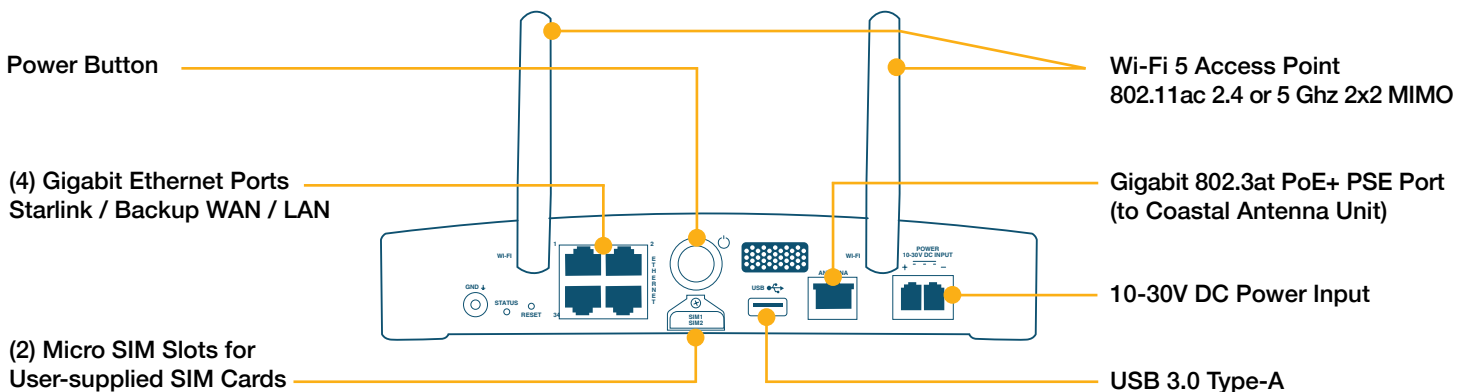

Significant Upgrades Delivering Superior Performance

The cellular technology at the heart of the TracNet Coastal and the TracNet H-series offers dramatic performance improvements over KVH’s earlier, award-winning TracPhone® LTE-1 and LTE-1 Global cellular systems, including more than a 10x download improvement and a 12x upload improvement over LTE-1.

Dramatic Antenna Unit Performance Enhancements

Specifications	TracNet Coastal Cellular Radio	LTE-1 Global Cellular Radio
Frequency range	600 - 6000 MHz	700 - 2700 MHz
