

YOURlink™

Corporate videos via KVH Link & IP-MobileCast™

YOURlink Highlights

- Easy and rapid transmission of content to your vessels equipped with KVH TracPhone® V7HTS/V7IP or V11HTS/V11IP systems
- High visibility in places where crew already gather during downtime
- Great viewing experience, thanks to KVH Link media player
- Support for any media file type
- Reports show which vessels received the content and how many times it has been played
- Easily add and remove vessels from your distribution
- Specify the start and stop view dates for each video
- No impact on your monthly data plan
- Affordable, pay-per-video pricing. Contact us to discuss your requirements and request a proposal.

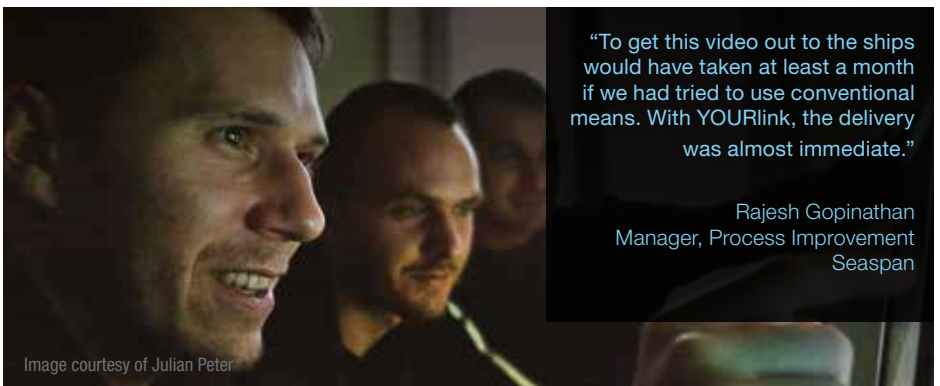

YOURlink, delivered by IP-MobileCast, enables your business to share important, proprietary media files with every vessel in your fleet. Transmission is by multicast protocol over unused bandwidth to avoid data contention and ruinous data fees. What once required weeks or months of shipping time for DVDs or flash drives can now be handled in a matter of days.

Now you can reach your seafarers with company-specific media quickly, easily, and affordably.¹ Everyone onboard has immediate, simultaneous, and unlimited access to your custom content via the TV in the common areas and their own tablets, smartphones, and PCs.

YOURlink from KVH – offering an unparalleled connection from shore to ship with the messages that matter most.

In one scene, a child laughs. In another, a wife prays. “I worry about only one thing, that he should be safe onboard,” she says, referring to her seafaring husband who spends months away from home.

From a 4-minute video created by Seaspan to rededicate the company to safety – a poignant reminder tying company culture to the wellbeing of families at home, transmitted to 40 vessels around the globe via YOURlink.

“To get this video out to the ships would have taken at least a month if we had tried to use conventional means. With YOURlink, the delivery was almost immediate.”
