

TracPhone® V30 & AgilePlans®

Ultra-compact, fast, affordable VSAT

Easy, Affordable, Flexible

AgilePlans Regional is the ideal all-inclusive connectivity solution for vessels with lighter data needs or that operate in select regions, and the perfect upgrade from FleetBroadband terminals and their slower, expensive airtime. With the ultra-compact 37 cm TracPhone V30 antenna system, your fleet will benefit from global high-speed broadband service (as fast as 6/2 Mbps down/up), unlimited email and texting, and KVH's exclusive multi-level cybersecurity program. Plus with AgilePlans Regional there are no long-term ownership, installation, or maintenance costs. You'll enjoy flexible monthly subscriptions with no overages, and you can cancel at anytime without penalties.

Ku-band Coverage

TracPhone V30 and V3-HTS are 2-axis, stabilized antennas that do not provide coverage in areas where the satellite is directly overhead.

Ultra-compact, innovative hardware

The revolutionary single-cable, DC-powered 37 cm TracPhone V30 is the perfect replacement with faster speeds and more data for far less, all in a compact, proven, award-winning hardware solution for your connectivity needs.

Compact, integrated belowdecks units

The DC-powered VSAT-Hub is the streamlined all-in-one belowdecks unit that powers the TracPhone V30. Ultra-compact and with low power consumption, this commercial-grade system includes built-in WiFi, VoIP adapter, four Ethernet ports for LAN/VLAN support, and NMEA 0183 and 2000 inputs.

TracPhone V30 Specifications

Antenna Diameter:	37 cm (14.5")
Weight:	10.6 kg (23.4 lbs)
Input Power:	10-30 VDC, 125W max
Antenna Type:	Ku-band
Coverage Area:	Worldwide
