

CommBox™ Edge Feature Suites

CommBox Edge Communications Gateway

Network and Bandwidth Management Feature Suites

Your vessel deserves a communications network that meets your demanding standards, simplifies your connections, and helps secure your data and communications. KVH's CommBox Edge Communications Gateway enhances your vessel's modern multi-orbit, multi-channel connectivity using premier, intuitive network and bandwidth management.

Create an onboard network that meets your most demanding requirements with multiple easy-to-use and powerful channel management and bonding capabilities to meet your unique needs.

Threats Dashboard			Yes
Security System Log Recording and Reporting			Yes

Mitigating Risk with the CommBox Edge Secure Suite

Designed to help mitigate risks as part of a comprehensive cybersecurity solution, CommBox Edge Secure Suite offers an intrusion protection system that actively seeks out and responds to threats such as denial of service, ping of death, malware, port attacks, and more.

It is fully integrated with Cisco Talos, among the world's most advanced threat blocking and detection solutions, enabling constant updates to new threat IDs and threat patterns. In addition, the system offers automated risk mitigation that allows CommBox Edge to take real time action to block malicious actions.

All Feature Suites Fully Compatible with All CommBox Edge Options

CommBox Edge 6		CommBox Edge 2	
			
Front View	Back View	Front View	
Manage up to 12 WAN sources 6.1" x 5.0" x 2.1" / 15.5x12.7x5.3 cm +12 VDC (50W Max); 100-240 VAC, 50-60 Hz (AC/DC Power Supply Included)		Manage up to 12 WAN sources 4.4" x 3.4" x 1.4" / 111x85x35 mm +12 VDC (50W Max); 100-240 VAC, 50-60 Hz (AC/DC Power Supply Included)	

CommBox Edge also available as a Virtual Machine for vessels with compatible onboard hardware

All CommBox Edge options offer:

- Cloud-managed user interface with real-time metering and analysis
- WAN combination and control with advanced rolling and channel bonding
- Bring CommBox Edge 6 and Edge 2 to your fleet with NO CAPEX thanks to KVH AgilePlans®
