

Unlock a World of Entertainment at Sea with KVH Link

Keeping crew engaged, informed, and entertained at sea is vital to crew morale. People are used to streaming content on shore and new services like Starlink and OneWeb are reducing data costs. But is streaming the best, most practical, or most affordable means of delivering news and entertainment to commercial seafarers?

Streaming	KVH Link
<p>1 hour of full HD (1080 dpi) streaming = 3 GB of data*</p>  <p>20 people onboard enjoying just 1 hour of HD each per day = 1,800 GB of data per month!</p> <p>With 15+ crew members using individual streaming platforms, a 1TB plan will vanish quickly. One major tanker fleet's experience with Starlink revealed throttling data usage to 1GB per crew member daily was insufficient to meet the needs of streaming services.</p>	<p>No use of monthly data plan for streaming content!</p>  <p>Your crew can enjoy daily news and hundreds of hours of content = 0 GB of your monthly plan required!*</p> <p>Save your data using KVH Link, the all-in-one crew content solution. KVH Link delivers over-the-air updates of daily news, movies, TV, music, and more to the onboard linkHUB media server. Crew can use TVs, laptops, and personal devices to watch all this content without using your monthly data package while you get that content delivered at no extra cost.</p>

* Popular Science, "How much data does streaming live TV use?"

* No-added-cost content delivery available to KVH VSAT, Starlink, and OneWeb customers.

KVH Link's Exclusive Features for Seamless Entertainment

<p>All-in-One Solution</p> <p>KVH Link is your vessel's one-stop-shop for a diverse range of content, including news, sports, movies, TV shows, documentaries, viral clips, music, podcasts, and wellbeing clips.</p>	<p>Early Access Titles</p> <p>Enjoy exclusive releases not available on mainstream streaming platforms for months or years.</p>	<p>Cultural Diversity</p> <p>Tailored for global crews, our content library includes World Cinema titles from India, the Philippines, Greece, Eastern Europe, and beyond.</p>	<p>Curation Sensitivity</p> <p>In these uncertain times, we carefully curate content to respect cultural and political sensitivities, ensuring a harmonious onboard environment.</p>	<p>License Compliance</p> <p>All content is licensed for viewing at sea, a crucial factor for blue-chip companies seeking reliable entertainment solutions while minimizing cyber and copyright infringement risks.</p>

Benefits for You and Your Crew:

Crew Cohesion: Installing the KVH Link linkHUB media server in recreational areas fosters social bonding, encouraging crew members to spend downtime together.

Overcoming Restrictions: Popular streaming services like Netflix and Amazon face increasing restrictions, with VPN use often banned in many countries. KVH Link offers a seamless and reliable alternative.

MLC, 2006 Compliance: Align with MLC, 2006 guidelines by providing your crew regularly updated entertainment libraries, contributing to their overall well-being during long sea journeys.

Do you want to revolutionize your crew experience while saving on data costs? Get in touch today or visit www.kvh.com/link for more information.
