

Inmarsat Airtime Services Fleet F77 Rate Sheet

Effective 1 April 2018

Inmarsat Fleet F77 Standard Airtime Rates

Mobile-to-Fixed (Ship-to-Shore)

The Inmarsat Fleet service provides the flexibility and power to meet the varied communications and data requirements of the maritime industry. Designed to meet the growing demand for global voice, data, web browsing, and e-mail service, it also provides voice distress and safety services that meet the latest IMO requirements for the Global Maritime Distress and Safety System (GMDSS). An Inmarsat Fleet F77 antenna provides users at sea with mobile, pay-by-the-minute high-speed ISDN service, as well as voice and fax functions.

Inmarsat MobileLink™ Services

Connect Calling Fixed-to-Mobile (Shore-to-Ship)

MobileLink from Inmarsat allow land-based customers to call Inmarsat-equipped vessels as either collect calls (vessel pays) or at their own cost at rates far lower than what the public telephone company typically charges. With MobileLink, accounting is streamlined so that all calls appear on a single monthly invoice. This approach to calling a vessel is easy to use, which means offices and family can easily reach the vessel without complicated dialing instructions or high service fees.

Calls To	Cost Per Minute	
	Voice	ISDN (64 Kbps)
Inmarsat Fleet F77	\$4.25	\$10.40
