Wiring for TracVision TV5/TV6/TV8 Systems Tri-Americas Upgrade

A TracVision TV5, TV6, or TV8 antenna system with a quad linear LNB can be converted, with a Tri-Americas LNB Upgrade Kit, to receive DIRECTV® PanAmericana and DIRECTV U.S. services. Once the LNB is installed in the antenna, use the diagram below to rewire the system. Refer to the Installation Guide for further details. Then follow the LNB Replacement Instructions to register the new LNB with the main board.

Available Upgrade Kits

Antenna Model	KVH Part No.
TracVision TV5	72-0623
TracVision TV6	72-0660
TracVision TV8	72-0729
